Episode 2 "The Lion's Fangs"

* * *

The Swiss Family Robinson, miraculously saved from the burning ship Providence by a great storm which extinguished the fire, make for the shore of a tropic island near which the ship has foundered, carrying with them stores and utensils from the wreck and put up a tent which they call Tenthelm.

Sir Charles Leicester, gallant captain of a gang of pirates who started the fire, has escaped with Emily Montrose, a beautiful passenger, to another part of the island where his prates await him.

Tonio, tough leader of the waiting party, accuses Sir Charles of softness and has himself elected leader of the gang. They duel. One of them is sent hurtling over a precipice.

In the meantime, Francis, the youngest Robinson, has brought home a lion cub which he has hidden in a sea chest in the tent. During the night a maned lion comes into the tent looking for the cub. Fredrick springs from his cot and faces the brute with an axe.
